Sinni has been a force of nature since she was young. Born in India and determined, she started a beauty parlor at the age of 16 and then taught others, and empowered other women to do the same. In addition, she completed a Textile Design degree at Delhi Polytechnic Institute and a Bachelor of Arts degree at Kurukshetra University. After coming to the United States in 1985, she continued her cosmetology career before starting an additional career as a dental hygienist. Sinni decided this was not enough for her and joined the Master of Spiritual Psychology program at the University of Santa Monica.

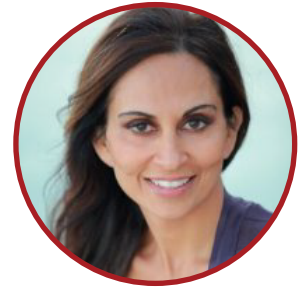

Guided by God and the deep desire to empower women, Sinni has continuously used the resources she has to inspire others. From working at a homeless youth center in Las Vegas to giving out scholarships to children, her generosity has inspired students to learn about the harmony of the soul, mind, and body, and how we are all connected. Not only is she generous, but she also teaches meditation and offers healings for the youth as acts of selfless service.

No matter if she is meditating or overseeing offices in Oklahoma and Las Vegas, Sinni is finding new ways to improve the way things are. Curious and passionate about learning, she is a powerful healer who has learned Reiki, sound healing, and other energetic healing modalities, often traveling to far off places to gain knowledge of healing methods. Sinni willingly gives healings to those in need.

Sinni has great plans for her life. She is open-minded and energetic. Not only is she writing a book and overseeing mobile home parks (MO and OK) and rental properties (CA, MO, OK, NV), but she is also dedicated to her own healing and self-care. She is committed to meditating every day, and also enjoys inviting business associates and friends for a cigar, a glass of scotch, energetic discussions, and games of chess. She is also passionate about dancing and riding.

What you need to know above all else is that Sinni is committed to empowering women, to helping female entrepreneurs, and to encouraging those who feel they are lost in their lives. Sinni is as powerful of a business woman as she is a healer and motivator and a true example of how beliefs can create reality.

Sinni is the epitome of aligning belief with action. She truly believes that every day is an opportunity to live your fullest life and to bring sweetness back into the world. Her walk is of grace and elegance, while being bold in her faith, and she knows that God has put her in a place to do great things. Her commitment to God and to helping others connect to His greatness is the force behind her dedication, her drive, and her success in life.
